BOOKER T. WASHINGTON  
SAYS RACE NEEDS MORE  
DOCTORS

*Talks to Howard Students—  
Says Number of Negro Physicians  
Should Be Twice as Large as It  
Is — President of Tuskegee Will  
Remain Here Several Days—Med-  
ical and Other Departments of the  
University Begin Session.*

Telling the students who matriculated in the Howard University Medical School Monday morning that there is plenty of work for physicians of the Negro race, and admonishing them that they must, after graduation, keep up the standard of the profession, Booker T. Washington, president of Tuskegee Institute of Alabama, delivered the address to the students in the university chapel at noon.

"I am not indicating or advocating that the color line should be drawn in the practice of medicine," continued the speaker, "but I think it fair and just that the Negro race should have a fair proportion of Negro doctors to practice among Negro patients. At this time there are more than three thousand intelligent Negroes engaged in the practice of the most exclusive and highest professions in the world. There are only about half the number of physicians of the Negro race that there ought to be. In the case of the white race there is one doctor to every six hundred people. Even if the Negro doctors increase to 3,500 we would have only one to every seven thousand Negroes in America.

Plenty of Work to Be Done

"There is plenty of work for you to perform in the interest of humanity and your race, but after you receive your diploma from this institution remember that the standard of the profession must be kept up. We need four thousand additional Negro doctors. In that respect, then, Howard University has a serious responsibility resting on it, as well as a great opportunity.

"It is the mission of the Negro doctor to teach the gospel of health to our people, and in this much-needed work schools like the Medical Department of Howard University should have the confidence and support of all people of this country, irrespective of race or color, and especially is it important that Southern people realize that Howard is working for the whole South in helping to preserve the health of the Negro."

The Tuskegee educator was introduced to the audience which filled the chapel to overflowing, by Dr. W. R. Thirkield, president of the institution. He referred to him as a great educator, a statesman, a humanitarian, and a citizen of the world. Dr. Washington will remain here for several days, and participate in the opening exercises of other departments of the University.

Dr. Thirkield Also Speaks

Dr. Thirkield also addressed the students. At the same time that the Medical Department opened the Schools of Dentistry and Pharmacy began the matriculation of students. Dean E. W. Ballock, president of the District Medical Society, presided at the opening of the medical and correlated departments.

At the opening of the Theological Department, at ten o'clock, Prof. John Ewell delivered an address to the young students who have entered that department. Fred Smith, international secretary of the Y. M. C. A., delivered an address in the memorial chapel of the University at 10:45 o'clock. Many friends of the institution attended the opening of the schools yesterday.

POPULAR EDUCATIONAL  
MASS MEETING IN THE IN-  
TEREST OF FERGUSON-  
WILLIAMS COLLEGE

Asbury M. E. Church was most brilliantly lighted on Monday evening, October 4, and a grand popular educational meeting was held there to awaken an interest in the great work. Rev. and Mrs. E. V. C. Williams are doing at Abbeville, S. C. The meeting was opened by devotional exercises conducted by Rev.

E. W. Williams, D.D. Miss Lula Howard presided at the organ, and several selections were sung by Miss Virginia L. Williams.

Rev. Williams, in introducing Professor Kelly Miller, of Howard University, gave a brief outline of the work which is being done at Abbeville, where Mrs. Williams and he have labored with great success for about thirty years.

Prof. Kelly Miller spoke with great earnestness, giving his most hearty endorsement to the work and to Rev. and Mrs. Williams, the workers. Professor Miller was listened to by the large audience with the closest attention, and his remarks were received with great applause. While Professor Miller was speaking Dr. Booker T. Washington was seen coming up the aisle; this was the occasion for an outburst of applause, which did not subside for more than a minute. There were a number of distinguished persons on the program for addresses, but by common consent Rev. Williams presented Dr. Washington, who made one of his characteristic speeches, in which he said that, while traveling in South Carolina, he had heard nothing but good of Rev. and Mrs. Williams and the noble work they are doing for the uplift of the race. Dr. Washington having several other engagements was forced to leave at the conclusion of his remarks. He placed his contribution on the table and urged the congregation to give liberally to the support of the work represented by Dr. and Mrs. Williams.

Short addresses were then made by Dr. W. V. Tunnell, of Howard University; Mr. Joseph Williams, of Abbeville, S. C.; Mrs. E. V. C. Williams and Mr. J. A. Lankford, who also lifted the collection. A goodly sum was realized, and Dr. Williams and his good wife left greatly encouraged.

Dr. and Mrs. Clair and the Asbury M. E. Church are to be congratulated on the splendid work they are doing for the race in Washington and vicinity. May they live long to bless the world with their good deeds and labors of love.

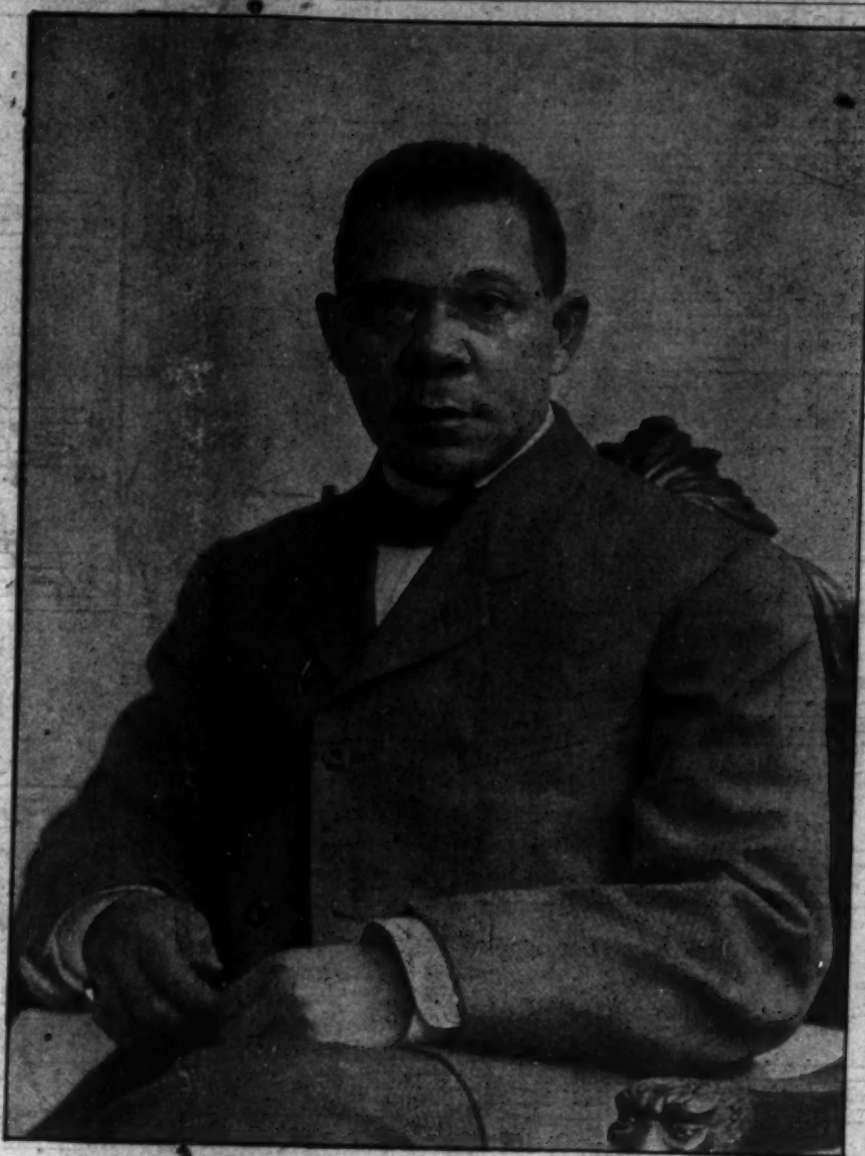

### HELPING HUMANITY

Dr. Booker T. Washington delivered several speeches Monday. He was a very busy man. He tried to help everybody, including the poor. After his speech at Howard University he was told that he had another grandchild that had just arrived, so he immediately went to Fairmont Heights, to the home of his most amiable daughter, Mrs. Pittman, and was greeted by a bouncing boy, who has been named Booker T. Washington Pittman. After giving the father and mother good advice he arrived at the Howard Law School and told the lawyers how to conduct their cases. He had told the doctors what to do in the afternoon. Not being satisfied with the advice he gave the lawyers, he went to Asbury A. M. E. Church, corner of Eleventh and K streets northwest, where he was met by Rev. E. W. Williams and wife, Mrs. Ella V. C. Williams, Prof. Kelly Miller and others, where he delivered an address on Ferguson and Williams Academy, of Abbeville, S. C., which was very encouraging, and before he left he gave a contribution. He had an engagement with his private secretary, Commissioner Scott, at the residence of Dr. J. R. Francis, where he went and remained until train time. He left on the 12 o'clock train for the East.

### A SPECIAL SERMON

The Ladies Crispus Attucks Association will have a special sermon preached to them Sunday evening at 7:30 p.m. at the People's Congregational Church, M street between 6th and 7th streets northwest, by the pastor, Rev. S. B. Moore, Ph.D. An invitation from them to the Men's Crispus Attucks Association met with hearty and unanimous acceptance, and the organization, with its four hundred members, have been notified to be at the church at 7 p.m. sharp.

### PARAGRAPHC NEWS

BY  
Miss Gonia B. Maxfield  
It is said that Mr. A. N. Fields, formerly editor of the Chicago Western Opinion, will start another paper, the "Illinois Chronicle," at the 15th of this month.

The National Training School for Women and Girls, of which Miss Nannie H. Burroughs is president, will open on the 19th of this month. Several prominent speakers will take part in the opening exercises, which will take place at the school.

At the Hotel Astor last week, in New York, there was held the "Medal of Honor Legion." This organization is composed of heroes only of the Civil War who were decorated by Congress for heroic services. Gen. Horace Porter is commandant, and of the three hundred members of this organization only two are colored — Maj. C. A. Fleetwood, well known in this city, and John Lawson, of Philadelphia, Pa.

Rev. Reynold E. Blight, of Los Angeles, Cal., made a stirring address in the interest of the Negro. Among other things he said: "Say what we may about the Negro, a race that can produce such characters as Toussaint L'Ouverture, Frederick Douglass, Professor Du Bois and Booker T. Washington, is worthy of the largest consideration from the proudest race on earth." We have still some friends to advocate our cause.

Charles M. Pratt, general secretary of the Standard Oil Company, and president of the Pratt Institute, of Brooklyn, has announced that he and his sister, Mrs. E. B. Dane, would give an endowment fund of \$1,700,000 to the Pratt Institute.

At a meeting of the Yale Corporation a gift of \$42,500 from William D. and Henry T. Sloan, of New York, for the erection and equipment of a physics laboratory was made known. Also a gift of \$25,000 from Alfred G. Vanderbilt and a subscription of \$15,000 was received from George Hewitt Myers.

Dr. Booker T. Washington delivered the opening address to the Medical Department of Howard University last Monday. His address, as usual, was full of wit, humor and good, practical sense, and was highly appreciated by his hearers.

With nearly one thousand officers and enlisted men of the Twenty-fifth Infantry, 400 civil passengers 16 invalids, and a number of insane patients and military convicts, the U. S. Army Transport Sheridan arrived at quarantine, from Manila, October 4. The soldiers were assigned to Fort George Wright, near Spokane, and Fort Lawton, at Seattle, Wash.

The marble statue representing the birth of the idea of the American

Flag, ordered by the City of Baltimore from M. Merles, the sculptor, has been completed and will be shipped shortly to America.

Prof. George E. Nitzsche has received word that the University of Pennsylvania has won the gold medal for the best educational exhibit at the Alaska-Yukon-Pacific Exposition at Seattle.

The Sight-Seeing Automobile and Investment Company, of which Mr. Griffin is treasurer, was the only one owned by colored people which took part in the automobile and floral parade last Thursday.

Donald Monroe Gilbert, son of the editor of the Western Christian Advocate, sailed on the 8th for Paris, where he will study at the Sorbonne, perfecting himself in the Romance language, the teaching of which he will make his life-work. He will remain for a year or two, and spend some time at the German Universities. Mr. Gilbert graduated from Wesleyan University in Connecticut in 1908, and afterward taught one year in Porto Rico.

From the estate of the late Miss Mary J. Robbins the American University received more than \$1,250. Miss Robbins was greatly interested in Christian education.

### "MAN OF THE HOUR"

Rev. Simon P. W. Drew, D.D., LL.D., Ph.D., pastor of the great Cosmopolitan Temple Baptist Church, N street northwest, between Ninth and Tenth streets, Washington, D. C., president of the William McKinley Normal and Industrial School of Alexandria, Va., and president of the National Negro Baptist Evangelical Convention of America. Dr. Drew is one of the greatest Negro evangelists of the race in the United States; already fully fifty thousand people have been converted in the United States by his preaching. He is the first colored preacher or evangelist to lead a midnight street parade in Washington, D. C., last March, when fully ten thousand to fifteen thousand took part.

He duplicated the street parade similar to the one of the famous Gypsy Smith, in leading thousands of people through the streets of the National Capital.

Dr. Drew came to Washington and conducted one of the greatest revival meetings ever known in that city, where nearly one thousand people were converted and gave their names to join the Metropolitan Baptist Church. The church afterward elected Dr. Drew as their pastor, and gave him \$650 for four weeks' work, but he never served them, and they were so anxious to have him as their pastor that they left in a body of about one thousand strong and

organized what is known today as the Cosmopolitan Temple Baptist Church, N street northwest, between Ninth and Tenth streets, with Dr. Drew their honored and beloved pastor, with a membership at present of twenty-five hundred.

This great church was recognized June 29, 1908, by one of the largest councils ever assembled in the United States. The recognition sermon was preached by the great Baptist giant, Rev. George W. Lee, D.D., LL.D., pastor of the great Vermont Baptist Church, with a membership of four thousand strong.

The Cosmopolitan will celebrate its fifth anniversary commencing on Sunday, December 12th, to Sunday, December 19th. Dr. George W. Lee has been invited to deliver the fifth anniversary address. Thursday, December 16th, short addresses by Dr. S. Jeriah Lamkin, pastor of the 10th Street Baptist Church; Dr. W. H. Brooks, pastor of the 19th Street Baptist Church; Dr. James H. Lee, pastor of the Third Baptist Church; Dr. J. L. Loing, secretary; Dr. W. D. Jarvis, president of the Baptist Preachers' Conference. Dr. Shelton Miller, pastor of St. Luke's Church.

Dr. Drew will preach Thursday, October 7th, at 8 p.m., at Union Wesley A. M. E. Church, Twenty-third street between L and M streets northwest. Subject, "Dead Dog after a Flea."

Fifth anniversary sermon of the church by the great educator, Rev. W. Bishop Johnson, D.D., LL.D., pastor of the Second Baptist Church, with a membership of about twenty-seven hundred strong; also secretary and treasurer of the Afro-American Correspondence School.

Dr. Drew, who has spent a very pleasant vacation in Atlantic City, N. J., has returned home with his wife, looking the very picture of health, will preach the following sermons:

Sunday, October 10th, at 1 a.m.—"Stone Cut out of the Mountain." At 8 p.m.—"The Pale Horse."

Sunday, October 17th, at 11 a.m.—"Book of Seven Seals." At 8 p.m.—"Bed too Short; Covering too Narrow."

An address by Mr. W. Calvin Chase, Editor of The Bee, who will speak on the work of Rev. S. P. W. Drew from the time he came to Washington.

Dr. A. J. Tyler will preach Thursday, October 21, at 8 p.m., Dr. Drew's grand \$5,000 rally Sunday, Oct. 24, 11 a.m.—"Ball of Fire." At 8 p.m.—"The Cornerstone." At 3 p.m., Rev. Dr. W. H. Ferguson, pastor of Union Wesley A. M. E. Zion Church, Sunday, October 24th.

Dr. Drew, Sunday, November 7th,

at 11 a.m.—"Stone Crying." At 3 p.m.—"Nail Prints." Covenant meeting and Communion. At 8 p.m.—"Well Digger."

Sunday, December 5, at 11 a.m.—"Supreme Love." At 3 p.m.—"Key of Hell." Covenant meeting and Communion at 8 p.m. "Lord's Side."

Dr. Drew will conduct a series of revival meetings commencing Sunday, November 4th, at the Second Baptist Church, Atlantic City, N. J. Dr. J. D. Herben, pastor.

Dr. Drew is one of the best-known and loved ministers of the Capital City by all denominations. He is a great lover of the poor, distressed people, and thousands of mothers and children are benefited by his picnics, barbecues and excursions every year. Recently a complimentary excursion was given in honor of his great working in taking thirty-five hundred people to Washington Park, by the Independent Steamboat Society of 400 United States Clubs, and a committee of one thousand citizens.

While in Atlantic City he called on Rev. G. W. Henderson, D.D., pastor of the Shiloh Baptist Church; Rev. J. D. Herben, D.D., pastor of the Second Baptist Church and Rev. H. H. Brooks, pastor of the Third Baptist Church.

Rev. E. W. Johnson, D.D., pastor of the great St. Paul's Baptist Church, and president of the Penn Baptist State Convention, of Philadelphia, Pa. will preach at Cosmopolitan Temple Baptist Church Sunday, October 31st, at 1 a.m. Subject, "The Greatness and the Claims of Jesus Christ." At 8 p.m.—"Unseen Glory of God." Dr. Johnson is one of the greatest preachers of the Baptist denomination.

### ONLY ONE

Dr. James R. White, M.D., physician and surgeon, of Chicago Ill., is in the city attending the convention of physicians and surgeons.

Dr. White was appointed by the Governor of Illinois with several white physicians, he being the only colored physician to represent his race in the State.

Dr. White has been shown great consideration by many of the most eminent white physicians in the city. He has attended every social function that has been given, and treated with much consideration. He is a most affable gentleman and a very entertaining talker. He will leave the city for New York today; from there he will leave for his home.

### THE PEN, TONGUE, AND SWORD

One of the most interesting affairs in the history of Frederick Douglass Post, No. 11, G. A. R., is the celebration of its fiftieth anniversary of Capt. John Brown's Raid, at the Metropolitan Church, M street between 5th and 16th, Friday evening, October 15th. The subject is: "The Pen, the Tongue and the Sword." The speakers are: Miss Eva Hood Smith, Lieut. E. R. Gaither and Mr. M. C. Maxfield. Rev. H. N. Ross, D.D., will deliver an address to the soldiers.

### NOT TO BLAME

A representative from the moving picture show, so he claimed, to which The Bee referred last week, called to this office and stated that the school teacher who is the owner of the show, had nothing to do with the exhibition a few Sundays ago; that the place was turned over to the employees for a benefit for them.

### REGISTER VERNON

Register W. T. Vernon left the city this week to deliver an address in Cincinnati, Ohio, after which he will attend the conference of the fifth Episcopal District, presided over by Bishop Abraham Grant. Register Vernon will also visit the University at Quindaro, Kansas.

Register Vernon has been at his desk all the summer without a vacation, of which he is very much in need. He will combine work on this trip with a little vacation. There is no man in this country any more popular in the West than this distinguished and polished orator.

Register Vernon is a faithful public servant and one that is attentive to business. The Bee wishes him much pleasure and a safe return.

**CORSETS**

## The Perfect Corset for Large Women

It places over-developed women on the same basis as their slender sisters. It tapers off the bust, flattens the abdomen, and absolutely reduces the hips from 1 to 5 inches. Not a harness—not a cumbersome affair, no torturing straps, but the most scientific example of corsetry, boned in such a manner as to give the wearer absolute freedom of movement.

New W. B. Reduso No. 770. For large tall women. Made of white coutil. Hose supporters front and sides. Sizes 20 to 36. Price \$3.00.

New W. B. Reduso No. 771. Is the same as No. 770, but is made of light weight white batiste. Hose supporters front and sides. Sizes 20 to 36. Price \$3.00.

New W. B. Reduso No. 772. For large short women. The same as No. 770, except that the bust is somewhat lower all around. Made of white coutil, hose supporters front and sides. Sizes 20 to 36. Price \$3.00.

New W. B. Reduso No. 773. Is the same as No. 772, but made of light weight white batiste. Hose supporters front and sides. Sizes 20 to 36. Price \$3.00.

Ask any dealer anywhere to show you the new W. B. "hip-subsiding" models, which will produce the correct figure for prevailing modes, or any of our numerous styles which are made in such a variety as to guarantee perfect fit for every type of figure.

## WHEN NAPOLEON'S STAR SET.

Pathos in Last Address of Fallen Emperor to the Troops Still Loyal to Him.

It was at Fontainebleau that Napoleon received the pope in 1804. It was at Fontainebleau that he imprisoned the pope—the apartment which served as his prison is still shown—in 1812 and 1813. Finally, for Napoleon would have it so, it was at Fontainebleau that Napoleon signed his abdication and said farewell to his army in 1814, coming down the horse-shoe staircase at the head of the Cour du Cheval Blanc, and placing himself at the head of the guard, as if for review.

"For 20 years," he said, "I have been well content with you, and you have always been with me on the path of glory. With your help and that of all the brave men who are still loyal, I could have carried on the war for three years longer; but France would have suffered, and I did not wish that to happen.

"I might have died—that would have been easy; but I would not. I prefer to follow the path of honor, and to write the history of our exploits.

"I cannot embrace you all, but I will embrace your general. Come, Gen. Petit. Bring me the eagle! Dear eagle. May these kisses find their echo in every brave man's heart!

"Farewell, my children!"

That, surely, is the most pathetic, as it is also the most dramatic, scene in the whole history of Fontainebleau.

## STRANGE ACTION OF MEMORY.

Scenes of Other Days, Thought Forgotten, Are Suddenly Flashed Into the Mind.

Often suggestions out of all keeping with the surroundings come, and it may be asked, "What made you think of that?" Frequently we are positive that no conscious train of thought has brought up the idea. These memories, out of all rhyme and reason with our atmosphere and conscious occupation, pop into the mind and surprise us with their incongruity. Are these spontaneously originated as they seem to be, or have we merely forgotten the connecting train of ideas, as is often contended? The author, at recently, while looking at some dill pickles, had flash upon his mind the image of a Southern California beach and an incident associated with the scene. The memory came so suddenly and the connecting link was sought for so immediately that a dropping out of a segment of consciousness is altogether improbable, yet he felt that there was a connection somewhere, if it could but be found. And it was

found after a three-day search. Where the brine on the pickles had dried, there were left fine, white salt crystals just as he had seen on kelp and sea mosses that he had gathered on that beach. The memory in the stream of consciousness was spontaneous, and yet we see how it may come under our law, at least in its physiological version.—From the Mental Map.

## Her Choice.

They were sisters-in-law and reasonably well disposed toward each other. One was the mother of George, aged six months, and the other the mother of Marian, aged six months and four days. It was impossible that a slight parental rivalry should be altogether concealed.

"Marian does not seem to grow very fast," said the mother of George, with a suggestion of commiseration in her tones. "George is much taller—"(height being measured in inches).

"Perhaps he is," replied the mother of Marian, coldly, "but Marian weighs more."

"Oh, well," responded the sister-in-law, with a smile of high-bred superiority, "of course I should not wish George to be gross."

## Drawings and Paintings.

The first sketch from nature which a great artist makes nearly always has a freshness which he only labors away in the picture he bases on it; and the rough pencil or charcoal lines of the former frequently reveal more of his feeling toward his subject than all his anxious manipulations of the brush. That is why it is so exceedingly worth while to collect and catalogue every scrap of drawing that once littered a great painter's studio. His drawings give you his intentions; his paintings do not always give you their fulfillment. It is true that a drawing is incomplete, but therein lies its charm. Possessing a drawing you possess a hope, and hope is better for mortals.—T. P.'s Weekly.

## About Corn.

"I can't understand about the corn in this country, you know," said the Englishman. "It is the best vegetable you have here, you see what I mean? And you never serve it fresh. It is always canned, you understand, always canned."

"Now, why in the name of common sense do you take the fine, fresh article, you know, can it, and offer it to people to eat, when they might better eat it in its pristine condition? You see what I mean? Eh? But so, all the year round, they serve you canned corn, canned corn. Can they can it cheaper than they can cook it fresh? Is that it? Eh?"

## HAD THE AUDIENCE WITH HIM

Christian Missionary Had Little Show in Argument with Native Mollah.

As a medical missionary, stationed for 16 years in northwestern India, near the Afghanistan frontier, Dr. T. I. Pennell had his share of peril and adventure, which he has recounted in a volume entitled, "Among the Wild Tribes of the Afghan Border."

As a medical man, Dr. Pennell had his ups and downs with the native doctors, who sweat their patients and burn sores with lighted oil, but have so faith in western treatment. They also bleed and purge; but gradually the new-fangled treatment was accepted, and grateful converts were made at the Bannu dispensary.

As a missionary, Dr. Pennell had to contend with the mollahs, who are argumentative and great browbeaters; and very often, he confesses, he got the worst of it by verdict of the ragged crowd that hemmed in the theologians.

With a certain mollah, who regarded the Christian medicine-man as a rival, Dr. Pennell had an amusing encounter.

"Do you know," asked the mollah, "what becomes of the sun when it sets every day?"

The doctor gave the native circle the scientific explanation.

"Rubbish!" exclaimed the mollah. "We all know that the fires of hell are under the earth, and that the sun passes down every night, and therefore comes up blazing hot in the morning."

All Dr. Pennell's accounts of natural phenomena were ridiculed by the mollah. Then, turning to his people, he said, with contempt in his face and voice:

"It is evident that I shall have to teach him everything from the beginning."—Youth's Companion.

## ORIGIN OF BRITISH SQUARE

Battle Formation First Used by Scotch Troops at the Battle of Bannockburn.

The greatest of all Scotch anniversaries is that of Bannockburn, fought on midsummer day in the year 1314. Apart from its bearing on the independence of Scotland, the battle will always have an exceptional interest from the military point of view, as Bannockburn may be said to have been the birthplace of the British square. "Proud Edward's" army mainly consisted of cavalry, while that of the Scots, on the other hand, was almost exclusively composed of foot-folk, armed with the spear, and these Bruce threw into "schiltroms," or oblong squares—a formation borrowed by Wallace from the Flemings, who had employed it with success at Courtray—to resist the charge of the English cavalry.

Hitherto the mounted mail-clad knight had carried everything before him, but Courtray and Bannockburn proved that he was powerless to break resolute, spear-armed infantry drawn up in "schiltrom" or hedge-hog formation, and these two battles revolutionized the tactics of the continent and of our own island. Profiting by the lesson which had been taught them at Bannockburn the English applied the tactics of the Scots with brilliant success at Crecy, and still more at Agincourt. As it was the Scots who may be said to have originated the British square at Bannockburn, so it was they again who at Balacava were the first to discard it with "their thin red line," and now, owing to our changed conditions of warfare, it is discarded altogether.

### Duel with a Tiger.

Three Jakuns (aborigines) and a Malay chanced to be together in the jungle in Johore when they came across a tiger. They were only armed with parangs, and the Malay, wisely deciding in favor of discretion, took to his heels. Not so the Jakuns, however; for they at once determined to give battle, not utilizing their numerical superiority, but in the most sportsman manner arranging for the combat in a series of duels, if necessary.

As might have been expected, the series was necessary, and the end was not long in coming. The first man who entered the fray missed his blow and was at once struck down, and the same fate befell his two comrades, all three being killed.—Singapore Free Press.

### For Parents Only.

Parents nowadays have good cause to grumble. When they were young, father and mother were paramount. Now that they are old, pa and ma don't count a straw.

"After all," exclaimed the young lady visitor to the paterfamilias, who had supplied her plate with all the choicest titbits from the roast fowl, "there is nothing in the world like the breast of a chicken, is there?"

"I can't say," replied paterfamilias enviously. "I have never tasted the white meat in my life. When I was young my parents ate it; now my children do."

### Soldier's Odd Weapon.

A soldier named Pavlet was condemned to death by court-martial at Oran, France, the other day. He was charged with assaulting a corporal whilst on duty. During the hearing he threw at the president of the council a curious weapon made by himself, the blade of a pair of scissors fastened into a wooden handle. He was at once tried for this crime, and the death sentence pronounced.

WORTH ADVERTISING FOR.

There are 5,499 Negroes employed here in Washington by the Government alone, and these 5,499 Negroes draw salaries aggregating \$3,044,404. These more than three millions of dollars are spent right here in Washington, but scattered among the hundreds of tradesmen. Is this amount of money worth bidding for? It certainly is, and not even the largest stores in this city would refuse to get the big end of it did they but realize how much money the Negroes are really spending.

Now The Bee is the only Negro publication in this city. It stands without a rival or competitor, and covers the field like a blanket. If a few of the merchants in this city will patronize the advertising columns of The Bee, presenting the attractive bargains they may have these Negroes — these 5,499 Negroes who draw annually from the Government over three millions of dollars — will assume that by patronizing a publication edited and operated by one of their race that such firms desire and deserve their patronage. And such firms will receive the bulk of these over three millions of dollars received and spent by the Negroes of Washington.

What clothing stores, what furniture stores, what dry goods stores and what other lines of business will now make an effort to divert to themselves these over three millions of dollars spent by Washington Negroes by advertising in The Bee?

Place your advertising in The Bee and watch these 5,499 appreciative Negroes spend their over three millions of dollars with you.

Now is the time to advertise in The Bee, the newspaper that goes into every Negro home in Washington. Remember, merchants of Washington it's what advertising pays you, not what it costs.

## Colored Skin Made Lighter

The Chemical Wonder Company of New York manufactures seven Chemical Wonders which enable colored people to improve their appearance. These wonders cost 50 cents each. White people spend millions to beautify themselves. Colored people should make themselves attractive as possible. Colored men who use these wonders secure better situations in banks, clubs and business houses. Colored women occupy higher positions socially and commercially, marry better, get along better.

(1) Complexion Wonder Creme makes dark skin lighter colored, not with artificial white, but naturally; makes the skin itself lighter colored every time it is applied. Keeps the skin healthy, soft, fine. Makes any colored face more attractive. Improves any colored countenance like magic.

(2) Magneto-metallic comb, called Wonder Comb, can be heated before using and will straighten any hair. Will last a lifetime.

(3) Pomade, called Wonder Uncurl, uncurls kinks in hair and keeps it straight, lustrous and flexible. Wonder Uncurl heated into the scalp with a Wonder Comb will make the kinkiest head of hair look handsome.

(4) Wonder Hair Grow. Fertilizers in corn fields makes corn stalks grow, so this fertilizer rubbed into the scalp makes the hair grow longer, strengthens the scalp so it can hold the hair from falling out. It can be heated into the scalp with a Wonder Comb.

(5) Odor Wonder Powder instantly destroys perspiration odor. Thousands of men are barred from good salaries because of this unseen horror. Thousands of women are shut off from marriage and social life by this invisible barrier. People cannot detect perspiration odor on themselves. Every living being should use this powder.

(6) Odor Wonder Liquid is delightful as a toilet water; can be used with Odor Wonder Powder or separately. Surrounds the body with fragrance. A great luxury for those who can afford it.

(7) This pink variety of Complexion Wonder Creme No. 2 is called Shell-Pink. Gives lovely pink cheeks to light brown or mulatto colored faces. Light brown complexion with pink cheeks mark great personal beauty.

### VICTIM TELLS HOW LOCKJAW FELT

Doctor was Worried When His Face Began to Stiffen—Fought Disease

St. Louis.—Dr. F. W. Grundmann of Washington avenue, who was pronounced out of danger from lockjaw, after suffering for almost three weeks, described how he felt during his illness.

"In diagnosing my own symptoms a week after the germs of tetanus had entered my blood, I thought I had the disease, but I was not sure," said Dr. Grundmann. "One day, as I was stepping off a street car, it started jerkily and threw me on my knee on the street. A hole was ripped in my trousers, and a gash cut in the flesh of my knee, into which earth from the street was ground."

"It gave me no trouble, pained me very little and I gave it no further thought. About a week later I found that I had fever and that the muscles of my neck pained me and were constricted. Next I observed spasmodic jerking of the limbs. These I knew to be premoni-

tory symptoms of lockjaw.

"I was alarmed, naturally, but thought perhaps I might be mistaken, so I visited a physician and told him how I felt. He did not think seriously of the matter, and I believed I might have been mistaken, but nevertheless I was worried, and when that night the symptoms grew more pronounced and became more perceptible I watched them all the more closely."

"That night I got a real shock. I observed a growing rigidity of the muscles of the jaws. If it kept on they would become locked beyond all hope of unlocking them."

"In one day I had 6,000 units, about a fluid ounce, of the serum injected. My jaws continued slowly to grow more rigid, but we fought the disease with the serum until at last we saw that we had the disease going the other way, and we fought it out."

"The germs of tetanus may be in any manner of dirt. If you have a wound in your finger and go out into the garden and stick it into the fresh earth you stand a chance of getting lockjaw."

## ARE THE NEGRO DENOMINATIONS TO SUBMIT TO THE PROPOSED POLICY OF THE INTERNATIONAL SUNDAY SCHOOL ASSOCIATION?

The Bee has watched with considerable interest for a long time the policy of the International Sunday School Association toward the Negro under its present management. The Negro has always been appreciative of the things that have been done in behalf of the race, and we believe is growing in appreciation of those things that friends throughout the country continue to do. Especially is this true of all efforts along religious and educational lines.

The International Sunday School Association is a great body of organized Sunday School workers. It has a tremendous power for good or evil, and it does seem to The Bee that a body which is supposed to stand for right and truth and for that fellowship characteristic of the followers of the lowly Nazarene, should make the effort to have those feelings manifest in all its actions toward its membership. Instead, it is sad to relate, and our opinions are based upon positive authority, — that there is not as much prejudice and hatred to be found in any organization — secular or religious — as in the International Sunday School Association.

The disgraceful scenes of the Louisville Convention are yet fresh in the minds of many. Contrary even to the express desires of the Southern white contingent, it was sought by the responsible management to introduce Jim Crow conditions into a Christian assemblage. In all the years previous (with the possible exception of Atlanta) there had been no friction. We understand that the Chairman of the Committee stated in vehement language that the "Negroes will have to take that or nothing else."

And now comes the crowning humiliation! In the years gone by, the work of the International Sunday School Association among the Negroes has been directed by colored men. We point with pride to what has been accomplished through these agents, especially under the administrations conducted by Maxwell, Marcus, and Shepard. The remarkable impetus given to Sunday School work in the South can be largely attributed to these men, and yet the present Chairman would have us believe the work of these men have been failures, and upon his recommendation we are told that the Central Committee decides that for the future the work of the International Sunday School Association among the Negroes shall be conducted by a white man, to be known as Superintendent in charge of the work among Negroes, and that under him shall

be appointed a Negro who shall work in four States, under the direction of the white superintendent and a special committee. Shades of Moses! After all these years of progress and advancement along educational and religious lines, it is a reflection upon the race, if among its religious leaders one can not be found capable of directing the work among our Sunday School people in the Southland. We do not believe the members of this Association know to what extent the color line is being drawn in its affairs. We do know, however, that the great membership in all the denominations, North and South, white and black, do not endorse this proposed action. Those who cater to passions and whims will learn that the Southern whites do not admire, respect or follow mollicoddles; they always admire bravery.

The Bee is no religious journal. Its mission, however, is to defend the right and truth and to safeguard the rights of the people. We trust the Negro religious bodies will look into this matter. Our people can not afford to accept any gift supposed to come in the spirit of the Master but marked with the habiliments of the devil. We shall have more to say about the proposed book to be issued by this Association which is to show the remarkable progress of the race.

## WHAT SOME RELIGIOUS DENOMINATIONS ARE DOING FOR THE NEGROES.

We point with pride to the record of some of the religious bodies in their work to help uplift the Negroes.

The Methodist Episcopal Church North has a Negro for one of their General Officers, with salary equal to the white General Officers. One of the secretaries of the Epworth League is a Negro, besides several Field Superintendents of Sunday School work.

The International Young Men's Christian Association employs three Negro General Secretaries and we are told will soon put in the fourth one.

The American Baptist Publication Society employs a Negro District Secretary for the South and he directs their work among the Negroes.

The American Missionary Association (Congregational) have for years employed Negro Field Missionaries.

The American Bible Society employs a Negro district secretary, or field agent. The American Tract Society also.

All of these agencies are now spending thousands of dollars annually; they treat the Negro as a man and a brother, and it remains for an association representing all denominations and which spends only a few hundred dollars among the Negroes to draw the color line and treat the Negro as a Jim Crow Annex.

They have three Negroes on the Executive Committee — Drs. Mason, Penn and Shepard — and one Negro vice president — President Bishop Clinton.

We wonder will these men sit quietly by and see the race tabbed in the house of its supposed friends! We will wait and see.

## DR. WASHINGTON SPEAKS

Of course The Bee is an admirer of Dr. Booker T. Washington. His speech in defense of Howard University, under the auspices of the opening of the Medical Department of that institution last Monday noon, was a studied effort on the part of that distinguished gentleman. The Bee has been in doubt all along, but now it is convinced that the Howard University needs propping up.

The Bee is for Howard University. When that institution continues to be for the Negro. The compliment that Dr. Wash-

ington paid Prof. Kelly Miller was a deserving one. Professor Miller, as dean of the College department, has brought hundreds of students to that institution. There is no man in the country any more respected than Professor Miller.

Does The Bee understand Dr. Washington to mean that the country must stand by Dr. Thirkield, right or wrong? His recent speech would indicate that, anyway. The Bee does not agree with Dr. Washington's speech. There were a few things that should have been left out. Perhaps the Southern colored man is more capable of appreciating his speech in full than the Northern Negro. The Northern Negro cannot see things as Dr. Washington see them. It is true that the physician of today must prevent the body from becoming sick. He must adopt the more advanced science, as Dr. Washington suggested. The Bee does agree with him when he admonishes the Negro physician to be clean when he visits his patients. He must keep good company. In many instances his speech gave good advice to the Negro physician.

## FORCE THE REMEDY

It is quite evident that the only method to adopt to make the Negro amount to anything is by using force. While many white people discriminate against the Negro on account of his color, it is doing him good. Since there are so many drug stores that will not serve him, he is establishing drug stores of his own. There are some of the finest drug stores in this city controlled and conducted by colored men and women.

There is no excuse for the Negro not being able to be accommodated in first-class order. He has drug stores, restaurants, dining rooms, hotels, cafes, ice cream parlors, and everything that will cause life to be made agreeable and happy. The more the white people take from the Negro and force him upon his own resources the better he will succeed in every path of life.

## INDUSTRIALISM

Industrialism is the keynote or one of the foremost attributes of American civilization. Without it the Negro is lost in the equation. Higher education is all right for those who are capable of taking it in, but the masses who must learn a trade to live by should take kindly to industrialism. The moment a white person tells the Negro to follow industrialism he becomes angry and declares that the white man is inimical to higher education for him. This is not true, to a great extent the Southern white man has shown great friendship for the Negro, more so than he does for each other. Tuskegee is doing today more than any industrial school in the country. Dr. Washington may have his faults; he does not claim to be perfect — but there is one thing about him, and that is, he is a friend to his race, and that The Bee knows, his enemies to the contrary notwithstanding.

## A NOTICE

There will be a mock Annual Conference held at John Wesley A. M. E. Zion Church, Eighteenth street between C and M streets. All friends are cordially invited to attend. Mrs. R. O. Smith will act as presiding officer. Don't miss this rare treat of fun and laughter.

## OBITUARY

Mr. Emmanuel Thomas, of 63 G street northwest, who was accidentally run over by an automobile Saturday evening, September 25, died at the Casualty Hospital. Mr. Thomas had been employed at the Government Printing Office for thirty years, during which time he won a host of friends. Mr. Thomas was held in high esteem by all who knew him and will be greatly missed by his friends. He lives a widow, one son, to mourn his loss.

## SPERRY IS RETIRED

Rear Admiral Reached the Age Limit of 62 Years.

Naval Commander Goes Out of Service Without Having Seen Active Service—Once Chief of Naval War College.

Newport, R. I. — Rear Admiral Charles S. Sperry, U. S. N., who was retired the other day, having reached the age limit of 62 years, will be remembered as the commanding officer of the around-the-world voyage of the American navy, from San Francisco to Hampton Roads. Succeeding "Fighting Bob" Evans, who successfully piloted the fleet from Hampton Roads to the Golden Gate, Admiral Sperry had the usual misfortune of those who succeed a public favorite. However, Sperry soon proved that he was an able commander as well as a faithful second-in-command. Evans and Sperry both spent the best part of their lives in the service of the United States.

Admiral Evans was born in 1846 and entered the navy in 1860. Admiral Sperry was born in Brooklyn in 1847 and entered the naval academy two years after Admiral Evans. Sperry was educated in the public schools of Waterbury, Conn., which has remained his home, so far as a naval officer can have a home. He married Edith Marcy, a daughter of William L. Marcy, who was governor of New York state in 1833-39, and later secretary of state under Polk, and secretary of state under Pierce. Admiral Sperry was promoted to ensign in 1868, to master in 1869 and to lieutenant in 1870. He has had three tours of duty as instructor at the United States Naval Academy, 1874-78, 1881-84, and 1887-91. He was commissioned lieutenant commander 1885; served on the Chicago of the squadron of evolution, 1891-93, and at the bureau of ordnance in Washington, 1893-95.

He became a commander in 1894, and from 1895 to 1898 was at the New York navy yard. His knowledge of

ordnance was an important factor in preparing the fleets for the Spanish-American war. It was his devotion to this work which prevented him from getting a better war command than that of the Yorktown, which he held from 1898 to 1900. From 1901 to 1903 he commanded the New Orleans.

Despite his long career in the naval service, since April, 1868, when he was appointed ensign, Admiral Sperry has never seen active service. At the time of the outbreak of the Spanish-American war, the admiral, then a commander, went to Washington and asked for a ship. He wanted to go to the front.

"Any officer can command a ship," said the bureau chief. "You go to Brooklyn and superintend the fitting out of the ships with ordnance. There is no glory about that, but you can make yourself mighty useful."

Admiral Sperry went back to Brooklyn, his home town, and there served out the war in the Brooklyn navy yard.

By virtue of his presidency of the War college, Capt. Sperry was a member of the general board of the navy and he was the naval member of the national coast defense board. In May, 1906, he became a rear admiral, and in June went to Geneva as naval delegate of the United States to revise the convention of 1864, concerning the treatment of sick and wounded in time of war. In 1907 he was again the naval delegate of the United States at the second international peace conference at The Hague. His services to the United States and to humanity at this conference are universally conceded to have been great.

At the conclusion of the conference, Admiral Sperry was one of the four rear admirals chosen to take the fleet of 16 battle-ships around the world.

Succeeding Admiral Evans in the supreme command at San Francisco in May, 1908, he brought the fleet back to Hampton Roads by the way of China, Japan and the Philippines. When in the Mediterranean his fleet was rushed to the aid of the earthquake sufferers in Sicily and Calabria, Italy.

Admiral Sperry is of slender build, weighing not more than 130 pounds, is of a pale complexion, with black hair slightly gray over the ears, and with piercing black eyes. When not troubled with indigestion, and when work is progressing favorably he is the most genial of gentlemen, replete in anecdote and most companionable.

## A HOUSETOP CONEY ISLAND

Realistic Miniature of the Real Thing on Roof in Tenement Region in New York City.

New York.—Rev. "Bob" Davis of the Brick Presbyterian church of this city assisted by a dozen college men and several college girls, have started a miniature Coney Island in the midst of "Hell's Kitchen" in Manhattan.

This oasis is situated on the roof of Christ Church Memorial building and covers, with the neighboring roofs about half an acre. Swings, shoot the chutes, rocking and swinging horses, sand, teeters are all there on a small scale, in fact, all Coney Island except the sea.

"When summer comes," Mr. Davis said, "settlement workers usually

The Shoot the Chute.

close their settlements and leave for Europe or Bar Harbor or their country places, and this throws the poor people on their own resources when amusements are at a premium. Our idea is no high flying one. We want to make friends with these people and help to amuse them. We will preach no new religion.

The children are not the only ones looked after, however. There is a billiard room for the men, as well as shower baths, a fully equipped gymnasium under the direction of an expert. Every week a smoker will be given as well as a dance, concert and a party with cake and ice cream. The place is self-supporting. The industrial teachers will train the girls in sewing raffia work, chair caning, millinery and hammock making. The boys will learn carpentry and chair caning. Folk dances, singing, marching and fancy drill will be taught the children between seven and fourteen years. All the children will be taught the rules of first aid to the injured.

At night the roof will be surrounded by Chinese lanterns and electric lights. At one end there is a covered auditorium for the older people.

## PLUM GOES TO A VIRGINIAN

Royal E. Cabell Appointed Internal Revenue Commissioner, Succeeding John G. Capers.

Washington.—Royal E. Cabell, for the last three years postmaster at Richmond, Va., has succeeded John G. Capers as commissioner of internal revenue. Capers retires to take up the practice of law. Mr. Cabell is only 32 years old, and is the youngest

man ever appointed to the commissioner's chair. He is a graduate of Princeton and was admitted to the bar in 1901.

Much importance now attaches to the position Mr. Cabell holds, for under the new tariff law he will be charged with the responsibility of the collection of the corporation tax, in addition to several hundred millions of other revenue.

President Taft met Mr. Cabell at the Virginia Hot Springs at a meeting of the State Bar association the summer prior to his nomination for the presidency. They became very good friends, and this friendship has now landed in the lap of Mr. Cabell one of the most desirable plums.

## Reporters Are But Human.

The poor reporter! He is always the scapegoat. And yet a harder or a more devoted worker does not live. Inaccurate he sometimes is. Who in the world is not? To reflect justly in words the most trivial incident is one of the most difficult of human tasks. But consider the vast number of times when, after the most arduous effort, the reporter secures the news and presents it clearly and interestingly. The public reads, enjoys, profits—and forgets. It is only when something goes wrong that some one sits up and scolds.

## THAT NEW ASSOCIATION

From the Philadelphia Tribune. We hear that the National Press Association has been reorganized, with our old friend, Mr. R. W. Thompson, as president. In the reorganization we detect the same old marks of weakness that caused the decline of the old organization, viz: the absence of the men who are actively engaged in the publication and editing of papers, and the attempt to tack the Press Association on to some other body.

When the late Dr. Simmons organized the original Press Association he took the pains to gather into its fold men who were actively engaged in the work. Such men as Fortune, of the New York Age; Mitchell, of the Richmond Planet; Cooper of the Indianapolis Freeman; Lewis, of the Petersburg Herald; Perry, of the Philadelphia Tribune; Smith, of the Cleveland Gazette; Chase, of the Washington Bee; Murphy, of Baltimore, and many others. All of whom represented a class of men in the business. And the very minute these men lost interest in the movement and the sessions were made up, in the main, of correspondents and proxies, the Press Association began to wilt and eventually died.

For years our old friend, the Honorable Cyrus Field Adams, tried to rejuvenate the parent body by tying it on to the Afro-American Council, but the thing would not work, and now Mr. Thompson is trying to tie it on to the Business Men's League, and we fear he, too, will fail. Fail, because he does not know that the vital questions which require the attention of the bona fide newspaper man are so important and varied that no other issues can be injected when the real, active host of newspaper men get together, and we very much fear that little good can or will be accomplished to further the work among newspaper men until the bona fide men take up the work, as they should do.

Of course, we have no fight with Mr. Thompson because he has had the courage to start something. As bright and jovial and as competent as he is as a correspondent, he does not publish a paper, hence has not rubbed against the ordeals and hardships of a publisher, and only the experienced fellows can tell what should or should not be done by a Press Association.

It may be that Mr. Thompson was induced to take this step by the advice of our friend Dr. Washington, and the organization newly formed may be sufficient to carry out his ideas. This may all be true, but as a practical newspaper publisher we beg to convey the same message to Dr. Washington, viz: that a genuine National Press Association must be made up of bona fide publishers, and

Seventh and I (Eye) Streets, N. W.

Baptist Church, 27th street and Dumbarton avenue, were much in evidence last Sunday, the day having been set apart for their special benefit. Carriages were provided to convey them to and from the church, which was tastefully decorated in autumn leaves, suggestive of the decline of life.

An eloquent and impressive sermon was delivered by the pastor, from the text: Psalms 71, 9. At the close of the service the aged members were assisted to the lecture room of the church, where the deaconess, Mrs. Fannie Bailey, chairman, assisted by a committee of ladies, served them to an elaborate and toothsome dinner.

The Communion service took place at 3 p.m., preceded by a brief Covenant meeting, in which the old Herald of the Cross told many soul-stirring experiences.

Drs. M. W. D. Norman and W. J. Howard, and Revs. Joseph H. Lee, Parker, Jordan and Carter, assisted the pastor in this service, which like the service of the morning, was very largely attended.

At the Baptist Ministers' Union Revs. J. A. Taylor, D.D., J. D. Corrothers, D.D., S. G. Lamkins, E. B. Gordon and J. I. Loveing, D.D., were appointed to represent the Union at the great mass meeting which is to be held in Liberty Baptist Church, Eighteenth and E streets northwest, Sunday, October 10. Rev. J. E. East and Miss Mary Buchanan will address the meeting. It is hoped that all the churches of the District of Columbia will send a farewell contribution.

At 3 p.m., thirty minutes missionary song service, conducted by Prof. Granderson. Dr. I. Toliner, the pastor, will welcome the missionaries and workers.

**W. J. DONOVAN WINNER**  
Declared the Most Popular Irishman in the City

3,849 Votes Cast For Him  
Commissioner Macfarland, in presence of A. O. H. officials, hands him the prize, a diamond horseshoe pin—Recipient makes brief response—Second award, order for suit, goes to P. F. Carr.

William J. Donovan is the most popular Irishman in the city, according to the outcome of the popularity contest held by the Ancient Order of Hibernians in connection with their fair and field day at Benning's September 22 and 23.

In the presence of a representative group of Irishmen, in Commissioner Macfarland's office yesterday afternoon, Mr. Donovan was declared the winner of the contest and received the diamond horseshoe stick pin, first prize. Mr. Macfarland made the presentation. Mr. Donovan received a total of 3,847 votes.

The second prize, an order for a suit of clothes on Saks and Company, went to P. F. Carr, who received 2,035 votes. P. F. Moran was third in the list and Fred W. Miller fourth.

Brief Address of Thanks  
After thanking Commissioner Macfarland and the A. O. H. for the prize he had received, Mr. Donovan said:

"It is with extreme pleasure that I take this prize, a token of esteem from my fellow-countrymen. I did not enter the race with the idea that I was going to carry off the first prize, and would have been content had I received only a large number of votes. I want to thank my friends who voted for me, and you, Mr. Commissioner, for the part you have played in the presentation."

Mr. Macfarland remarked that there were many Irish-Americans in the city, and that they always made good citizens. "They are always the

first to come forward when need is required, and this country is fortunate to have so many Irishmen to boast of."

Mr. Carr was well pleased with the prize he received. He declared he had won a prize which would be useful to him this winter, and after thanking Commissioner Macfarland and Isaac Gans, manager for Saks and Company, who was present, said that he would not make a mistake by taking a summer suit instead of a winter outfit.

Those in the Contest  
Mr. Macfarland's office was decorated with American Beauty roses, a gift from the A. O. H. Following is a list of those voted for in the contest, finishing in the order named:

William J. Donovan, P. F. Carr, P. T. Moran, Fred W. Miller, P. J. Haltigan, Hugh Harvey, M. P. Sullivan, William McGuire, Arthur Small, Joseph Berg, Thomas J. Donovan, Richard Curtin, T. J. ## The "reason why"

VERY firm that extends credit searches for the most binding obligation to secure prompt settlements of its accounts. Forty years of experience have shown us that no contract, lease or note is as effective in this direction as the customer's SATISFACTION.

Selling Furniture and Carpets that stand the test of time and service—and we replace them if they do not—

Making prices as low as those of the cash stores, for equal values—

Giving terms that are graded to correspond with the customer's resources.

These points make up the "reason why" we do not find it necessary to compel a purchaser to sign any contract, lease or notes, nor to pay any part of the bill with the order.

That's the way we do business with people who are furnishing homes, and we're ready to give you just that kind of an open account.

## IT IS THE NEW EMANCIPATION PROCLAMATION

WASHINGTON IS THE SEAT OF OUR  
NATION'S GOVERNMENT.

The eyes of the world are on Washington.  
One-third of Washington's population is  
Negro.

If all the Negroes in Washington were colon-  
ized in one place they would make a city larger  
than Richmond, Virginia.

There are seven theatres in Washington,  
supported by a white population of 241,923—  
and a few foolish Negroes willing to be colon-  
ized in the galleries, the only place to which the  
Negro is admitted.

THERE IS NOT A SINGLE FIRST-  
CLASS OFFICE BUILDING in the city of  
Washington, where a colored professional or  
business man or woman, and there are hun-  
dreds of them in the National Capital, can ob-  
tain business quarters.

JUST THINK OF IT! 100,000 enterprising,  
thrifty, intelligent people, through race prej-  
udice, swept completely out of the business dis-  
trict of Washington; 100,000 genteel, prosper-  
ous, amusement loving people deprived of  
every form of theatrical entertainment unless  
willing to submit to the most humiliating con-  
ditions.

Every colored man and woman IN Wash-  
ington.

Every colored man and woman VISITING  
Washington.

Every colored man and woman in America,  
familiar with the true state of the Negro in  
Washington, realizes that a theatre, store, and  
office building, operated by the Negroes, for the  
Negroes, is A NECESSITY.

The welfare of the race demands it.

The self-respect of the race demands it.

Any enterprise resting its hope of success  
upon a NECESSITY is bound to be a suc-  
cess.

A THEATRE AND OFFICE BUILDING  
IN THE CITY OF WASHINGTON, built by  
Negroes, for the use of Negroes, is a NECES-  
SITY.

Appreciating to the utmost that fact—

THE LINCOLN MEMORIAL BUILDING  
COMPANY proposes to erect in the Central  
Business District of the city of Washington a  
magnificent theatre, seating capacity 2,500, and  
a store and office building of splendid propor-  
tion, adequate in every respect to meet the re-  
quirements of prosperous professional and busi-  
ness men.

The enterprise is exceptional in two respects:  
First—It is absolutely safe.

Second—It promises enormous possibilities  
as a money maker.

Features that must appeal to every man or  
woman with a few dollars to invest, and you  
are such a man or woman or you would not  
have read this far.

THE LINCOLN MEMORIAL BUILD-  
ING COMPANY has surveyed the field care-  
fully, and it KNOWS that hundreds of tenants  
are available for the offices, that dozens of  
merchants are ready to rent the stores, and  
that 100,000 people are anxious to patronize  
the theatre exclusively, and make it the best

paying amusement place in America.

IT KNOWS ALL THIS AND IT IN-  
VITES YOU TO PARTICIPATE in an en-  
terprise ABSOLUTELY DEVOID OF RISK,  
where every dollar will be invested in the best  
of Washington Real Estate, that increases in  
value annually at the rate of 5% per cent—  
nearly DOUBLE bank interest.

Even that is good enough for most people,  
but the LINCOLN MEMORIAL BUILDING  
COMPANY will do better than that. It will  
have offices and stores and lodge rooms, which  
will earn, on a conservative estimate, at least  
\$23,200 per year. Equal to 5 9-10 per cent per  
annum.

It will also have a theatre, which, if patron-  
ized at prices ranging from 10 to 50 cents, by  
only 1 per cent of the total colored population  
of the city of Washington, will enable the Com-  
pany to pay 15 per cent on its total capitaliza-  
tion. Equal in all to 20 9-10 per cent, to which  
may be added the land value increase of 5%  
per cent.

Now, all this is Conservatively Estimated.  
Banks and Insurance Companies engage in  
enterprises like this with their depositors' and  
policyholders' money—YOUR money, but  
YOU get only about 3 or 3 1/2 per cent. The  
banks or insurance companies keep the balance.  
THE LINCOLN MEMORIAL BUILD-

Proposed Front Elevation  
LINCOLN MEMORIAL OFFICE AND THEATRE BUILDING  
WASHINGTON, D. C.

ING COMPANY is ENTIRELY NEGRO.  
Not one dollar of white capital will be ac-  
cepted in exchange for its securities.

There is not one dollar of Promotion Stock,  
consequently there is no watered stock.

Every holder of stock from the President  
down must pay at LEAST \$10.00 per share for  
every share of stock allotted to him.

This does not mean that the price of stock  
will REMAIN at \$10.00 per share. It is \$10.00  
NOW. It will advance in price far beyond  
\$10.00, just as railroad and public utility stock  
goes to several times par. So will the Lincoln  
Memorial Building Company's stock go to  
several times its present value.

This means that a share of stock costing  
\$10.00 NOW will be worth \$40.00 when stock  
goes to four times par. Estimates show that  
the Company's earnings will be 20 per cent, and  
that is four times par, with every dollar in-  
vested in Real Estate. THE BEST in the city  
of Washington, where values are as firmly fixed  
as the Rock of Gibraltar.

This does not mean that the price of stock  
will remain at \$10.00 per share. It is \$10.00  
NOW. If the Company, as it is estimated,  
pays 20 per cent, a \$10.00 share of stock will  
be worth \$40.00. If it pays 40 per cent, a single  
share of \$10.00 stock will be worth \$80.00. Just  
as railroads and public utility stocks increase  
in value, so will the Lincoln Memorial Build-  
ing Company's stock increase in price.

The first allotment of stock at \$10.00 a share  
is being rapidly subscribed, and the next allot-  
ment will be \$12.50 per share, to which point  
it will soon be advanced; therefore, you are  
urged to avail yourself of the present oppor-  
tunity to get in as completely on the ground  
floor as any one of the Company's Directors  
are.

The Company's Directors, by the way, are  
men of sterling worth, integrity and honor, as  
you are possibly aware, or can easily ascertain  
through any COMMERCIAL AGENCY.

Their names are at the top of this page.  
They have unbounded faith in the future of the  
Company. They have invested THEIR hard  
earned money in it, and they advise you to in-  
vest YOUR money side by side with theirs.

DCN'T WAIT UNTIL IT IS TOO LATE.

The price of stock is \$10.00 per share, pay-  
able \$1.00 down and \$1.00 per month for nine  
months upon each share subscribed for.

DO IT NOW.

Before you lay this paper down cut out the  
coupon on the lefthand corner of this page and

if for but one share of stock.

We shall be glad at all times to give you fur-

you to join us in this enterprise.

Very truly yours,

LINCOLN MEMORIAL BUILDING  
COMPANY.

## HE WANTED TO BE ON TIME

But It Is Probable Mrs. Blank Had Something to Say to Him That Night.

He was a very busy man, and, like all of his kind, he hated to waste time by unnecessary waiting. That was why in the midst of his correspondence, along about 11 o'clock the other morning, he paused, and, turning to his secretary, requested him to ring up his residence on the 'phone.

"Jemison," he said, "get my house on the wire and ask Mrs. Blank to come to the 'phone. Just tell them that I wish to speak to her."

The secretary made off, and in a few minutes the required connection was made.

"Is that you, Mary?" he said.

"Yes," was the answer.

"Well, this is John," he said. "I have just rung you up to tell you that Barker was in here this morning with two tickets for the theater to-night."

He and Mrs. Barker have been called suddenly out of town, and he thought we might like to use the tickets. How about it?"

"Fine," replied Mrs. Blank. "I have nothing else to do."

"Ah right, my dear," continued Blank. "The curtain rises at 8:30."

"Yes, I know," said Mrs. Blank.

"I thought I'd let you know in time, so that directly you have had your lunch you can begin to put your hat on," he went on. "Then we can get there before the middle of the first act. By-by, dear."

The only answer was an angry click at the other end of the wire, which seemed to indicate that another

fact was the trouble, but Mr. Blank only laughed as he returned to his work.—Lippincott's.

## NO FOREST FIRES IN EUROPE

There Every Part of the Tree Is Utilized, Leaving Nothing to Start Conflagration.

The question has been asked why there should be so many fires in our American forests when there are so very few or none at all in the forests of Europe. The answer is this, says Outing. When the trees are cut in the forests of Germany, France or Switzerland, the entire material in the tree is marketed and removed, leaving no inflammable litter on the ground. In our American forests, owing to lack of market for such material, fully one-half of the tree—the limbs, smaller branches, twigs and foliage—are left upon the ground, where they soon become dry and furnish material for a forest fire.

In the European forests every part of the tree, including the smaller twigs, is sold. The sale of this minor product constitutes over one-half of the revenue. Hence, when the forester is through with his tree cutting no inflammable material is left upon the ground. Now, if our Adirondack lumbermen could sell the limbs and tops of the trees instead of allowing them to go to waste for lack of a market, they would not be obliged to leave the ground encumbered with the inflammable debris and litter which is such a prolific source of fire, and which when ignited is so difficult to extinguish.

### Firemen in the Metropolis.

There are more firemen killed and injured in the performance of their duties in New York City than in any other city in the world.

### Long Lived Swan.

Among the birds the swan lives to the oldest, in extreme cases reaching 300 years. The falcon has been known to live over 162 years.

### The Sawed Off.

Amputees are the shortest people in Europe, the men averaging 5 feet, 11 inches, the women 4 feet 6 inches.

The Bristol to Paddington (England) express covers 118½ miles in 1½ hours.

Glass telephone poles reinforced with wire are being used in some parts of Germany.

### High Priced Peaches.

A commission agent in the Paris fruit markets recently shipped a basket containing 63 selected peaches to London. The price for the lot was \$540, or about \$9 each.

### The Telephone.

If all the bell telephones made each year were blended into a single instrument it would be nearly 300 miles high and weigh 4,000 tons.

### Phonograph in Schools.

In some Viennese schools a phonograph which repeats speeches as recited by eminent actors has been introduced in order to teach the pupils declamation.

### The Sailors Tobacco.

Three hundred tons of tobacco are distributed annually among the sailors of the British navy. It is sold to them at cost.

### Postal Service in the Desert.

A new monthly postal service across the Sahara has just been established. The messengers are mounted on camels.

### A Big Sawmill.

Louisiana has a steel sawmill with a capacity of 600,000 feet a day, which is said to be the largest in the country.

When terrified the ostrich will travel 25 miles an hour.

**MAGIC SHAMPOO**

Every lady can have a beautiful and luxuriant head of hair if she uses a **MAGIC**. After a shampoo or bath the **Magic** dries the hair, removing the dandruff and straightens the curliest head of hair.

The **Magic** will not burn or injure the hair, because it is **heat** when healed. The steel bar which the **Magic** is held, is alone, put into the flame of the alcohol or gas heater. The Aluminum Comb, easily detached from the heating bar, then, after the bar is cooled, is used to comb the hair back into place and is held by a spring.

The **Magic** Heater is also suitable for curling irons, has a cover and can be carried in a case.
